

Overview of the Entrepreneurial courses and Activities at TU Delft

Ever thought about starting up your own company? The TU Delft offers loads of options for entrepreneurial students! Whether you have a brilliant idea or just want to explore the possibilities. From business lectures and start up visits abroad, to hackatons and courses in writing a business

plan. Find out more about the 'entrepreneurial' side of the university in this brochure.

The diagram on page 2 will tell you all about the activities and helps you find the opportunity that suits you best.

Inspiring Activities

1.

If you are curious about starting up a company, but you don't know how, the TU Delft organises several inspiring activities that help to fan the entrepreneurial flame. These activities are worth joining, not only because they are mostly free of charge, but also because you get the chance to meet people who already started their own company.

Please also visit www.yesdelftstudents.nl/YESDelftStudents/Activities for more information or contact YES!Delft Students via education@yesdelft.nl.

Study specific Case Day

Meet entrepreneurs in your specific field.

Delft Centre for Entrepreneurship (DCE)

The TU Delft Centre for Entrepreneurship (DCE) encourages students and researchers from the TU Delft to become entrepreneurs and to engage in entrepreneurial activities. We help students gain knowledge with courses about entrepreneurship, such as finance, product development and marketing, and support researchers in transferring their knowledge to the market.

The TU Delft has the right resources for people to gain significant knowledge about entrepreneurship, develop their skills and start their own company. By bringing entrepreneurial people together, the TU Delft Centre for Entrepreneurship contributes to the innovative and competitive capacity of the Dutch economy.

Brainstorm during the 1·2·Startup Weekend

2. Entrepreneurial Education

As a university, the TU Delft off course also offers education on entrepreneurship. All students may apply for any of the courses, even without an idea for a business. The special master courses are accessible for all master students. When the courses are chosen as part of the elective space within a master, ECTS study points can also be gained.

Learn from experts how to write a business plan and how to start-up.
WM0506TU, 6 ECTS
education@yesdelft.nl

Valorisation Centre

The valorisation of knowledge is the creation of social and economic value based on scientific knowledge and skills. The Valorisation Center stimulates and facilitates TU Delft scientists and supporting employees in knowledge valorisation.

In recent years valorisation has developed into a core activity of the TU Delft next to education and research. Entrepreneurial education and facilitating starting companies (Delft Enterprises), but also the joint venturing with corporations to participate in big research consortia and cutting-edge contract research, are examples of valorisation activities which will continue to increasingly grow the coming years.
